DIVING

The crew of Rocio Del Mar is here to help you in any way possible to make your visit to the Socorro Islands an unforgettable experience.

Diving at the Socorro Islands is amazing and it provides the chance for large animal encounters. The main attractions in the Socorro Islands are large pelagic animals including Mantas rays, Bottlenose dolphins, Humpback whales, seven different types of sharks including Hammerhead sharks and Whale Sharks. Due to the Revillagigedo biosphere regulations, divers are prohibited from carrying lights, knives or gloves when diving anywhere in the Socorro Islands. Only camera lights are permitted. All diving is during the day; there are no night dives. The first day divers enjoy 3 dives. All other days' divers enjoy 4 dives per day, conditions permitting. Divers can expect 3 dives a day at Roca Partida.

Our 3 trips have dive masters on board to lead dives and assist divers. We also have two zodiac drivers vigilantly watching for bubbles and retrieving divers upon surfacing. We provide 80 cubic ft. aluminum tanks that are both DIN & yoke compatible.

BEFORE YOUR TRIP

Beverly, in Guest Services, will contact you after your booking to provide you with a link so that you can complete a passenger document (your travel agent will do this if booked through a travel agency). We will also need a copy of your passport and appropriately signed liability waivers. PLEASE PROVIDE THESE DOCUMENTS NO LESS THAN 30 DAYS PRIOR TO YOUR TRIP DATE two months prior to departure. The more information we have, the better we can accommodate your needs including dietary restrictions, if any. Beverly can be reached at BPeterson@RocioDelMarLiveaboard.com or you can e-mail or fax the information to the contact information listed on the front page of this document.

If you are flying to Mexico, you can visit www.sat.gob.mx for important information on what is permitted to bring on your flight to Mexico.

GETTING TO THE BOAT

Rocio del Mar is located at Marina Puerto Los Cabos in La Playita, [San Jose del Cabo](#).

All guests must travel to San Jose del Cabo (SJD).

Guests are responsible for their own transportation to and from the boat. The marina is about 25 minutes from the airport and 15 minutes from downtown San Jose del Cabo.

The most economical way from the airport to the marina is to take a Colectivo (shuttle) and a taxi. The Colectivo (shuttle) charges \$15.00 USD per person. Once you collect your bags and leave customs you will enter a lobby. You will find a stand that says taxi. A taxi ride from the airport to the marina is about \$60 USD. You can

ask for a Colectivo at this same stand. A Colectivo is a very nice shuttle that takes about 9 passengers and does a hotel drop. Since you are going to San Jose you will be dropped off first. You can have the Colectivo drop you off at the Hotel Tropicana. At the hotel, you can then request a taxi to the Marina Puerto Los Cabos. You should not pay more than \$10 USD. It's about a 15-minute ride from the hotel to the marina. By choosing these two methods of transportation it should cost you about \$25 USD. If you choose just to get a taxi from the airport to the marina it should cost about \$60 USD. If you have more than one person, it is often easiest to use a taxi directly to the marina.

RETURN

The boat will return to the marina during the night and passengers need to be ready to depart by 8:30am on the last day of your trip. A continental breakfast will be served. Our crew will call taxis to get everyone to the airport or their hotel.

ITINERARY

Please arrive the day prior to your trip. That evening you will need accommodations in San Jose del Cabo (there is a list of suggested hotels at the end of this document). You will board the boat the day of departure at 8am.

Once aboard Rocio del Mar, you will be shown to your cabin and dive station. Our dive master will ask you to provide your scuba diving certification cards and proof of dive insurance.
